Education

University of Calgary

2022 – 2025

Doctor of Medicine (MD)

- Elected President of the Calgary Medical Students' Association
- Published 31 peer-reviewed publications (14 first-author); USMLE Step 1 (Pass)
- Awarded grants from OpenAI, Microsoft, Calgary Department of Surgery, and UCalgary Students' Union to develop large language model platforms for medical education and clinical practice

University of Alberta

2020 – 2022

Bachelor of Science, Engineering Physics (Partially completed degree)

GPA: 4.00/4.00

- Top GPA in cohort; top of class in multivariable/vector calculus
- Awarded research grants for combining artificial intelligence with rehabilitation exoskeletons

New College, University of Oxford

2021

Study Abroad, Magnetic Resonance Imaging and Stem Cell Engineering

First Class Honours

University of Alberta

2018 – 2020

Bachelor of Science Honours, Neuroscience (Partially completed degree)

GPA: 4.00/4.00

- Top of class in English critical analysis and organic chemistry II
- Awarded research grants for nerve regeneration

Leadership and Volunteering

OSCE-GPT

Feb 2023 – Present

Co-Creator and Principal Software Developer

- Created [OSCE-GPT](#), an AI-powered app that offers communications and medical management practice with images, medical documentation, and feedback; 6,000+ users in 60+ countries
- Solely responsible for the entire development lifecycle of the application, including coding, testing, deployment, and outreach for use in medical and nursing education curricula across Canada
- Used in the University of Calgary RIME curriculum for medical students, NURS 289 for Calgary nursing students, and University of Manitoba for nursing students
- Collaborating with *Medical schools* – Calgary, McMaster, Ottawa, UBC; *Neurosurgery programs* – across the country; *Dermatology residents* – Calgary, Toronto; *Ophthalmology residents* – Toronto, McGill; *Allied Health* – Alberta Association of Nurses, Calgary nursing, Manitoba nursing, SAIT respiratory therapy
- Media coverage: [UCalgary News](#), [The Globe and Mail](#), [Toronto Star](#), [CBC](#), [Global News](#), [CTV News](#)

Medical Education Working Group

Feb 2023 – Present

Co-Founder, Editor-In-Chief, and Principal Software Developer

- Created a [Toronto Notes GPT](#), an AI model that provides medical knowledge using the Toronto Notes; creating a medical question bank in collaboration with Toronto Notes and University of Calgary Cards
- Created [PrepCaRMS](#), an AI-powered app that offers interview practice with all CaRMS R-1 specialties (users speak to their device and then it speaks back) and feedback based on the interview
- Created the [Royal College Oral Practice App](#), an AI-powered app that provides practice and feedback for Canadian residents oral board exams; the app features dynamically-added images; users speak to their device and then it speaks back
- Created [MedNoteAI](#), a GPT-powered app for automated generation of notes and questions from lecture videos, audio, and PDFs; powered by Flask, OpenAI Whisper API, and GPT-3.5
- Created [SOAPNoteAI](#) a GPT-powered app for automated generation of SOAP notes, consult notes, differential diagnoses, and more from an audio file of a patient interaction

Calgary Medical Students' Association (CMSA)

Sep 2022 – Present

President (Elected)

- Chaired the Independent Student Analysis (ISA) Committee for [2024 accreditation cycle](#) of the Calgary MD Program by the [Committee on Accreditation of Canadian Medical Schools](#) (a 2-year process); led a team of 11 students and W21C researchers to create a 58-page ISA report on strengths, weaknesses, and recommendations for the Calgary MD program

- Advocated for and implemented “hot spot” reporting for identification of clerkship rotation sites with mistreatment issues; all clerkship rotation feedback blocks now have anonymous student reporting options
- Collaborated with faculty to create a response protocol package for students in crisis (e.g., self-harm, acute health crisis)
- Created an online platform for students to share and access study materials; created more than 1 GB of videos on course concepts, school notes, tools for career exploration, exams, shadowing, research
- Developed a financial strategy resulting in a 5% annual revenue growth for the CMSA, excluding student fees
- Organized embroidered Patagonia merchandise for all Calgary MD students; acquired a 40% discount and 14-day free trial for AMBOSS for all Calgary MD students
- Collaborated with Undergraduate Medical Education to arrange 6 small group and exam review sessions for students
- Provided governance, representation, and communication for all matters pertaining to the general welfare and activities of 400+ MD students at the Cumming School of Medicine with faculty, administration, national collaborators, and other stakeholders
- Represented the student body at Canadian Federation of Medical Students general meetings, Western Dean’s Meeting, and other national events

Youreka Canada

Feb 2019 – Jun 2023

Vice President, Department of Programs

- Collaborated on national equity, diversity, and inclusion policies affecting 200+ students across Canada
- Created [A Gentle Introduction to Data Science with R](#), an interactive e-textbook on R programming and data science used by 1,000+ students across Canada (Dec 2020 – May 2022)
- Led a team of 17 PhD, MD, and BSc students to create and deliver the Youreka national curriculum; generated 60,000+ hours of research education for 1,000+ high school and undergraduate students annually across Canada
- Spearheaded the first professional development and pedagogy training for 17 undergraduate teachers across Canada
- Taught a ten-week science program to a cohort of 30 high school and undergraduate students in Edmonton
- Spearheaded a pilot project for Youreka Edmonton that doubled student enrollment from 30 to 60 students from 2019 to 2020

Engineering Physics Club at the University of Alberta

Sep 2021 – Jun 2022

Vice President External & Second-Year Representative

- Invited by University of Alberta faculty to align the Engineering Physics curriculum with industry and research needs; engaged multiple stakeholder groups; implemented 2 core classes and 2 electives; successfully advocated to maintain the co-op program
- Founded and wrote the [Atom Magazine for Engineering Physics](#); the first issue attracted 300+ readers in 6 countries

Research Experience

Project neuroArm

Jul 2022 – Present

Research Trainee (PI: Dr. Garnette Sutherland, Div. of Neurosurgery)

- Creating large language model apps for physician consultation, automated notes, and education
- Designing machine learning-driven platforms for surgical devices and education; projects include automatic surgeon identification using their surgical tool force profile, quantification of force components which differentiate ‘expert’ vs ‘novice’ surgeons, and an end-to-end platform to track surgical trainee progress
- Created [neuroGPT-X](#), a chat-based app for physicians for vestibular schwannoma; media: [Editorial. Who, or what, to believe](#) by Mayo Clinic surgeons (Journal of Neurosurgery)
- Created [Eloquent Aid](#), an AI-powered app to assist identification of eloquent brain regions during awake craniotomies; users complete image-based tasks by speaking, and the app determines whether the answer is correct in real time; used by neurosurgeons at the University of Calgary and the College of Medicine and Philippine General Hospital

Telerobotic and Biorobotic Systems Group

Sep 2021 – Jun 2023

Research Assistant (PI: Dr. Mahdi Tavakoli, Dept. of Electrical and Computer Engineering)

- Designed reinforcement learning algorithms for exoskeletons to personalize the patient rehabilitation process; implemented the TD3 algorithm with a lower limb exoskeleton to set a user’s desired walking speed; [manuscript](#) published in [ICRA 2023](#); media: [CTV](#) and [University of Alberta](#) interviews
- Led the development of a voice-controlled exoskeleton; users complete tasks 54% faster than using a mobile app

Selected Grants (of 17)

Innovation in Surgical Education Grant	Mar 2024
• Awarded by the Department of Surgery and Office of Surgical Education in Calgary for the development of OSCE-GPT	
Students Union Quality Money Grant	Mar 2024
• Awarded \$35,797 for the development of OSCE-GPT	
Microsoft for Startups Founders Hub	Mar 2024
• Awarded Microsoft Azure and OpenAI credits for the development of OSCE-GPT	
Mach-Gaensslen Foundation: Summer Medical Student Research Award	Feb 2024
• Awarded for project titled “Development and Use of a Novel Large Language Model (LLM) for the Management of Terminal Brain Cancers”	
OpenAI Researcher Access Program Grant	Jul 2023
• Awarded for research to develop responsible large language models in medicine	
Ontario Medical Student Education Research Grant	May 2023
• Awarded to create an interactive app for dermatology trainees to practice oral examinations (co-awarded with Ye-Jean Park and Dr. Mehul Gupta; PI: Dr. Trevor Champagne)	
NSERC Undergraduate Student Researcher Award	Mar 2022
• Awarded for project titled “Intelligent control of a lower-limb exoskeleton”	
Dean’s Research Award	Sep 2021
• Awarded for project titled “Speech-based locomotion planning for lower-limb exoskeletons”	
Alberta Innovates Summer Research Studentship	Apr 2020
• Awarded for project titled “Skin and Nerves: Understanding the dialogue between axons and skin cells to restore sensation”	
Office of the Provost and VP (Academic) Summer Studentship Award	May 2019
• Awarded for project titled “Axon regrowth and plasticity in diabetic neuropathy: the role of growth cone molecules”	

Selected Scholarships and Awards (of 22)

Cumming School of Medicine Tuition Reinvestment Bursary	Dec 2023
• Offered annually to undergraduate students enrolled in the Cumming School of Medicine, MD Program	
Louise McKinney Post-Secondary Scholarship	Dec 2019, Sep 2020, Nov 2022
• Awarded on the basis of superior academic achievement (top 1.5-2% of faculty) to students at the University of Alberta and Calgary who are also Alberta residents; awarded for the 2018/19, 2019/20, and 2021/22 academic terms	
Peter Loughheed Scholarship	Sep 2021
• Awarded to University of Alberta students who demonstrate leadership through involvement in university or community organizations, sports activities, or cultural activities and academic achievement	

- Undergraduate Big Data Challenge Research Excellence Award** Jul 2020
- Used unsupervised learning, feature selection algorithms, and neural networks to predict cancer response to chemotherapeutics
- Alberta Innovates COVID-19 Hackathon Post-Secondary Student Award** May 2020
- Created an interactive app to model how COVID-19 spreads given age, poverty, income, and population density
 - Media coverage: [University of Alberta Folio article](#) and the [Genome Alberta podcast](#)
- Sci5 Outstanding Achievement in Science Scholarship** Apr 2019, Mar 2020
- 2020 criteria: awarded to 4 well-rounded students with strong academic achievement, extracurricular involvement, and recommendation letters in the Faculty of Science at the University of Alberta
 - 2019 criteria: awarded to the top 5 students based on GPA in the Faculty of Science at the University of Alberta who also demonstrate exceptional extracurricular activities
- T4K Undergraduate Leadership Scholarship** Sep 2019
- Awarded to students at the University of Alberta with superior academic achievement who demonstrate leadership through involvement and participation in university or community organizations, sports activities, or cultural activities

Employment

- University of Alberta** Sep 2020 – Apr 2022
- Teaching Assistant, Introduction to Tangible Computing I & II (CMPUT 274 & 275)*
- Supported a class of 160+ students to understand algorithms and data structures in Python and C++
 - Received an overall effectiveness rating of 93% from anonymized student feedback surveys
 - Collaborated with a team of 16 teaching assistants to facilitate course delivery
- Edmonton Fencing Club** Nov 2016 – Oct 2020
- Fencing Coach*
- Coached children and teenagers and engaged their parents about their child's progress
 - Gave private lessons, taught strategic fencing thinking, and resolved student conflicts

Selected Sports Awards

Fencing (Foil)	2011 – 2020
• Accepted annually as a High Performance Program Athlete with the Canadian Fencing Federation	2013 – 2018
• Medalled in 5 Canadian national competitions in the open, U20, U17, and U13 categories	2013 – 2018
• Achieved USA Fencing A16 ranking (highest ranking in USA Fencing)	2016
• 23rd Place Guatemala Junior (U20) World Cup; represented Team Canada	2016
