## Education

---

### University of Calgary

2022 – 2025

#### *Doctor of Medicine (MD)*

- Elected President of the Calgary Medical Students' Association
- Published 34 peer-reviewed publications (16 first-author); USMLE Step 1 (Pass)
- Awarded grants from OpenAI, Microsoft, Calgary Department of Surgery, and UCalgary Students' Union to develop large language model platforms for medical education and clinical practice

### University of Alberta

2020 – 2022

#### *Bachelor of Science, Engineering Physics (Partially completed degree)*

GPA: 4.00/4.00

- Top GPA in cohort; top of class in multivariable/vector calculus
- Awarded research grants for combining artificial intelligence with rehabilitation exoskeletons

### New College, University of Oxford

2021

#### *Study Abroad, Magnetic Resonance Imaging and Stem Cell Engineering*

First Class Honours

### University of Alberta

2018 – 2020

#### *Bachelor of Science Honours, Neuroscience (Partially completed degree)*

GPA: 4.00/4.00

- Top of class in English critical analysis and organic chemistry II
- Awarded research grants for nerve regeneration

## Leadership and Volunteering

---

### OSCEai

Feb 2023 – Present

#### *Co-Creator and Principal Software Developer*

- Created [OSCEai](#), a generative AI app that offers communications and medical management practice with images, medical documentation, and feedback; 10,000+ users in 80+ countries
- Solely responsible for coding, testing, deployment, outreach, research, and grant funding
- Used in the University of Calgary RIME curriculum for medical students, NURS 289 for Calgary nursing students, and University of Manitoba for nursing students
- Collaborating with *Medical schools* – Calgary, McMaster, Ottawa, UBC; *Neurosurgery programs* – across the country; *Dermatology residents* – Calgary, Toronto; *Ophthalmology residents* – Toronto, McGill; *Allied Health* – Alberta Association of Nurses, Calgary nursing, Manitoba nursing, SAIT respiratory therapy
- Media coverage: [UCalgary News](#), [The Globe and Mail](#), [Toronto Star](#), [CBC](#), [Global News](#), [CTV News](#), [AgeTech World](#)

### Medical Education Working Group

Feb 2023 – Present

#### *Co-Founder, Editor-In-Chief, and Principal Software Developer*

- Created [On Call Scheduler](#), an automatic call shift scheduler that optimizes time off and load balancing across team members with statistics per individual; the app allows export of the generated schedule to calendar apps and Microsoft Word
- Created a [Toronto Notes GPT](#) to provide medical knowledge using Toronto Notes and ChatGPT
- Created [PrepCaRMS](#) to provide interview practice with all CaRMS R-1 specialties with tailored feedback for each interaction
- Created the [Royal College Oral Practice App](#) to provide practice and feedback for Canadian residents oral board exams
- Created [MedNoteAI](#) app for automated generation of notes and questions from lecture videos, audio, and PDFs
- Created [SOAPNoteAI](#) an app for automated generation of SOAP notes, consult notes, differential diagnoses, and more from an audio file of a patient interaction

### Calgary Medical Students' Association (CMSA)

Sep 2022 – Present

#### *President (Elected)*

- Chaired the Independent Student Analysis (ISA) Committee for [2024 accreditation cycle](#) of the Calgary MD Program by the [Committee on Accreditation of Canadian Medical Schools](#) (a 2-year process); led a team of 11 students and W21C researchers to create a 58-page ISA report on strengths, weaknesses, and recommendations for the Calgary MD program
- Advocated for and implemented “hot spot” reporting for identification of clerkship rotation sites with mistreatment issues; all clerkship rotation feedback blocks now have anonymous student reporting options
- Collaborated with faculty to create a response protocol package for students in crisis (e.g., self-harm, acute health crisis)

- Created an online platform for students to share and access study materials; created more than 1 GB of videos on course concepts, school notes, tools for career exploration, exams, shadowing, research
- Developed a financial strategy resulting in a 5% annual revenue growth for the CMSA, excluding student fees
- Organized embroidered Patagonia merchandise for all Calgary MD students; acquired a 40% discount and 14-day free trial for AMBOSS for all Calgary MD students
- Collaborated with Undergraduate Medical Education to arrange 6 small group and exam review sessions for students
- Provided governance, representation, and communication for all matters pertaining to the general welfare and activities of 400+ MD students at the Cumming School of Medicine with faculty, administration, national collaborators, and other stakeholders
- Represented the student body at Canadian Federation of Medical Students general meetings, Western Dean's Meeting, and other national events

## Youreka Canada

Feb 2019 – Jun 2023

### *Vice President, Department of Programs*

- Collaborated on national equity, diversity, and inclusion policies affecting 200+ students across Canada
- Created [A Gentle Introduction to Data Science with R](#), an interactive e-textbook on R programming and data science used by 1,000+ students across Canada (Dec 2020 – May 2022)
- Led a team of 17 PhD, MD, and BSc students to create and deliver the Youreka national curriculum; generated 60,000+ hours of research education for 1,000+ high school and undergraduate students annually across Canada
- Spearheaded the first professional development and pedagogy training for 17 undergraduate teachers across Canada
- Taught a ten-week science program to a cohort of 30 high school and undergraduate students in Edmonton
- Spearheaded a pilot project for Youreka Edmonton that doubled student enrollment from 30 to 60 students from 2019 to 2020

## Engineering Physics Club at the University of Alberta

Sep 2021 – Jun 2022

### *Vice President External & Second-Year Representative*

- Invited by University of Alberta faculty to align the Engineering Physics curriculum with industry and research needs; engaged multiple stakeholder groups; implemented 2 core classes and 2 electives; successfully advocated to maintain the co-op program
- Founded and wrote the [Atom Magazine for Engineering Physics](#); the first issue attracted 300+ readers in 6 countries

## Research Experience

### Project neuroArm

Jul 2022 – Present

#### *Research Trainee (PI: Dr. Garnette Sutherland, Div. of Neurosurgery)*

- Creating large language model apps for physician consultation, automated notes, and education
- Designing machine learning-driven platforms for surgical devices and education; projects include automatic surgeon identification using their surgical tool force profile, quantification of force components which differentiate 'expert' vs 'novice' surgeons, and an end-to-end platform to track surgical trainee progress
- Created [neuroGPT-X](#), a chat-based app for physicians for vestibular schwannoma; media: [Editorial. Who, or what, to believe](#) by Mayo Clinic surgeons (Journal of Neurosurgery)
- Created [Eloquent Aid](#), an AI-powered app to assist identification of eloquent brain regions during awake craniotomies; users complete image-based tasks by speaking, and the app determines whether the answer is correct in real time; used by neurosurgeons at the University of Calgary and the College of Medicine and Philippine General Hospital

### Telerobotic and Biorobotic Systems Group

Sep 2021 – Jun 2023

#### *Research Assistant (PI: Dr. Mahdi Tavakoli, Dept. of Electrical and Computer Engineering)*

- Designed reinforcement learning algorithms for exoskeletons to personalize the patient rehabilitation process; implemented the TD3 algorithm with a lower limb exoskeleton to set a user's desired walking speed; [manuscript](#) published in [ICRA 2023](#); media: [CTV](#) and [University of Alberta](#) interviews
- Led the development of a voice-controlled exoskeleton; users complete tasks 54% faster than using a mobile app

## Selected Grants (of 19)

<b>Innovation in Surgical Education Grant</b>	Mar 2024
• Awarded by the Department of Surgery and Office of Surgical Education in Calgary for the development of OSCE-GPT	
<b>Students Union Quality Money Grant</b>	Mar 2024
• Awarded \$35,797 for the development of OSCE-GPT	
<b>Microsoft for Startups Founders Hub</b>	Mar 2024
• Awarded Microsoft Azure and OpenAI credits for the development of OSCE-GPT	
<b>Mach-Gaensslen Foundation: Summer Medical Student Research Award</b>	Feb 2024
• Awarded for project titled “Development and Use of a Novel Large Language Model (LLM) for the Management of Terminal Brain Cancers”	
<b>OpenAI Researcher Access Program Grant</b>	Jul 2023
• Awarded for research to develop responsible large language models in medicine	
<b>Ontario Medical Student Education Research Grant</b>	May 2023
• Awarded to create an interactive app for dermatology trainees to practice oral examinations (co-awarded with Ye-Jean Park and Dr. Mehul Gupta; PI: Dr. Trevor Champagne)	
<b>NSERC Undergraduate Student Researcher Award</b>	Mar 2022
• Awarded for project titled “Intelligent control of a lower-limb exoskeleton”	
<b>Dean’s Research Award</b>	Sep 2021
• Awarded for project titled “Speech-based locomotion planning for lower-limb exoskeletons”	
<b>Alberta Innovates Summer Research Studentship</b>	Apr 2020
• Awarded for project titled “Skin and Nerves: Understanding the dialogue between axons and skin cells to restore sensation”	
<b>Office of the Provost and VP (Academic) Summer Studentship Award</b>	May 2019
• Awarded for project titled “Axon regrowth and plasticity in diabetic neuropathy: the role of growth cone molecules”	

## Selected Scholarships and Awards (of 22)

---

- Dutkevich Memorial Trust Award for Medical Students** Jun 2024
- Offered to MD students who have taken an approved clerkship elective in Pathology, Medical Microbiology, or Neuropathology
- Cumming School of Medicine Tuition Reinvestment Bursary** Dec 2023
- Offered annually to undergraduate students enrolled in the Cumming School of Medicine, MD Program
- Louise McKinney Post-Secondary Scholarship** Dec 2019, Sep 2020, Nov 2022
- Awarded on the basis of superior academic achievement (top 1.5-2% of faculty) to students at the University of Alberta and Calgary who are also Alberta residents; awarded for the 2018/19, 2019/20, and 2021/22 academic terms
- Peter Lougheed Scholarship** Sep 2021
- Awarded to University of Alberta students who demonstrate leadership through involvement in university or community organizations, sports activities, or cultural activities and academic achievement
- Undergraduate Big Data Challenge Research Excellence Award** Jul 2020
- Used unsupervised learning, feature selection algorithms, and neural networks to predict cancer response to chemotherapeutics
- Alberta Innovates COVID-19 Hackathon Post-Secondary Student Award** May 2020
- Created an interactive app to model how COVID-19 spreads given age, poverty, income, and population density
  - Media coverage: [University of Alberta Folio article](#) and the [Genome Alberta podcast](#)
- Sci5 Outstanding Achievement in Science Scholarship** Apr 2019, Mar 2020
- 2020 criteria: awarded to 4 well-rounded students with strong academic achievement, extracurricular involvement, and recommendation letters in the Faculty of Science at the University of Alberta
  - 2019 criteria: awarded to the top 5 students based on GPA in the Faculty of Science at the University of Alberta who also demonstrate exceptional extracurricular activities
- T4K Undergraduate Leadership Scholarship** Sep 2019
- Awarded to students at the University of Alberta with superior academic achievement who demonstrate leadership through involvement and participation in university or community organizations, sports activities, or cultural activities

## Employment

---
