Education

University of Calgary

2022 – 2025

Doctor of Medicine (MD)

- Elected President of the Calgary Medical Students' Association
- Published 36 peer-reviewed publications (16 first-author); USMLE Step 1 (passed); USMLE Step 2 CK (scheduled)
- Awarded grants from OpenAI, Microsoft, Calgary Department of Surgery, and University of Calgary Students' Union to develop large language model platforms for medical education and clinical practice

University of Alberta

2018 – 2022

BSc Engineering Physics and BSc Hons Neuroscience (Partially completed degrees)

GPA: 4.00/4.00

- Top GPA in Engineering Physics cohort
- Transferred from Neuroscience to Engineering Physics after 2 years
- Awarded research grants for combining artificial intelligence with rehabilitation exoskeletons
- Studied abroad at New College, University of Oxford in 2021 (First Class Honours)

Clinical Electives

<i>Neurosurgery</i> , Toronto Western Hospital, University of Toronto (2 weeks)	Sep 2024
<i>Neurosurgery</i> , Foothills Medical Centre, University of Calgary (2 weeks)	Sep 2024
<i>Neurosurgery</i> , Health Sciences Centre, University of Manitoba (2 weeks)	Aug 2024
<i>Neurosurgery</i> , Foothills Medical Centre, University of Calgary (1 week, selective)	Aug 2024
<i>Critical Care Medicine (Neuro Pod)</i> , Foothills Medical Centre, University of Calgary (4 weeks)	Jul 2024
<i>Radiology</i> , The Ottawa Hospital, University of Ottawa (2 weeks)	May 2024
<i>Trauma Surgery</i> , Foothills Medical Centre, University of Calgary (2 weeks)	Apr 2024
<i>Neurosurgery</i> , Walter C. Mackenzie Health Sciences Centre, University of Alberta (2 weeks)	Apr 2024
<i>Neurology</i> , South Health Campus, University of Calgary (2 weeks)	Mar 2024
<i>Neuropathology</i> , Foothills Medical Centre, University of Calgary (2 weeks)	Mar 2024
<i>Neurosurgery</i> , Brigham and Women's Hospital, Harvard Medical School (2 weeks, preclerkship)	Jul 2023

Leadership and Volunteering

OSCEai

Feb 2023 – Present

Co-Creator and Principal Software Developer

- Created a generative AI app called [OSCEai](#) that offers communications and medical management practice with images, medical documentation, and feedback; 10,000+ users in 80+ countries
- Led the coding, testing, deployment, outreach, research, grant funding, and marketization phases of OSCEai
- Used in the University of Calgary preclerkship curriculum for medical students, NURS 289 for Calgary nursing students, and University of Manitoba for nursing students; collaborating with Calgary, McMaster, Ottawa, UBC medical schools to provide history taking and medical management practice with simulated patient cases
- Working with neurosurgery programs across the country, dermatology residents at Calgary and Toronto, and ophthalmology residents at Toronto and McGill for research into OSCEai's effectiveness in postgraduate medical education
- Collaborating with Alberta Association of Nurses, Calgary nursing, Manitoba nursing, SAIT respiratory therapy for medical communications practice for their students
- Media coverage: [UCalgary News](#), [The Globe and Mail](#), [Toronto Star](#), [CBC](#), [Global News](#), [CTV News](#), [AgeTech World](#)

Calgary Medical Students' Association (CMSA)

Sep 2022 – Present

President (Elected)

- Represented and advocated on behalf of 400+ MD students at the Cumming School of Medicine with faculty, administration, and corporate stakeholders; collaborated with Deans and medical student leaders at national conferences to develop and implement policies affecting all Canadian medical students (e.g., advocating to maintain Family Medicine as a 2-year residency)
- Chaired the Independent Student Analysis (ISA) Committee for [2024 accreditation cycle](#) of the Calgary MD Program by the [Committee on Accreditation of Canadian Medical Schools](#) (a 2-year process); led a team of 11 students and public health researchers to create a 58-page report on strengths, weaknesses, and recommendations for the Calgary MD program
- Advocated for and implemented "hot spot" reporting for identification of clerkship rotation sites with mistreatment issues; all clerkship rotation feedback surveys now have anonymous student reporting options

- Collaborated with faculty to create a response protocol package for students in crisis (e.g., self-harm, acute health crisis)
- Created an online platform for students to share and access study materials; created more than 1 GB of videos on course concepts, school notes, tools for career exploration, exams, shadowing, research

Medical Education Working Group

Feb 2023 – Present

Co-Founder, Editor-In-Chief, and Principal Software Developer

- Created [On Call Scheduler](#), an automatic call shift scheduler that optimizes time off and load balancing across team members with statistics per individual; the app allows export of the generated schedule to calendar apps and Microsoft Word
- Created a [Toronto Notes GPT](#) to provide medical knowledge using Toronto Notes and ChatGPT
- Created the [Royal College Oral Practice App](#) to provide practice and feedback for Canadian residents oral board exams
- Created [MedNoteAI](#) app for automated generation of notes and questions from lecture videos, audio, and PDFs

Youreka Canada

Feb 2019 – Jun 2023

Vice President, Department of Programs

- Created [A Gentle Introduction to Data Science with R](#), an interactive e-textbook on R programming and data science used by 1,000+ students across Canada
- Led a team of 17 PhD, MD, and BSc students to create and deliver the Youreka national curriculum; generated 60,000+ hours of research education for 1,000+ high school and undergraduate students annually across Canada
- Taught a ten-week science program to a cohort of 30 high school and undergraduate students in Edmonton

Research Experience

Project neuroArm

Jul 2022 – Present

Research Trainee (PI: Dr. Garnette Sutherland, Div. of Neurosurgery)

- Designing machine learning and language model platforms for surgical devices and education; projects include automatic surgeon identification using their bipolar forceps force profile, quantification of force components that differentiate ‘expert’ vs ‘novice’ surgeons, and an end-to-end platform to track surgical trainee progress
- Created [neuroGPT-X](#), an AI chat-based app for physicians for vestibular schwannoma published in the Journal of Neurosurgery demonstrating subspecialty-level answers to user queries; media: [Editorial. Who, or what, to believe](#) by Michael J. Link, MD and Matthew L. Carlson, MD; Calgary Department of Clinical Neurosciences 2022-2023 Annual Report: [The AI Will See You Shortly](#) (pages 22-23)
- Created [Eloquent Aid](#), an AI-powered app to assist identification of eloquent brain regions during awake craniotomies targeted for low- to middle-income countries; users complete image-based tasks by speaking, and the app determines whether the answer is correct in real time; intraoperative trials underway in the College of Medicine and Philippine General Hospital

Telerobotic and Biorobotic Systems Group

Sep 2021 – Jun 2023

Research Assistant (PI: Dr. Mahdi Tavakoli, Dept. of Electrical and Computer Engineering)

- Designed reinforcement learning algorithms for exoskeletons to personalize the patient rehabilitation process; implemented the TD3 algorithm with a lower limb exoskeleton to set a user’s desired walking speed; media: [CTV](#) and [UAlberta](#) interviews
- Led the development of a [voice-controlled exoskeleton](#); users complete tasks 54% faster than using a mobile app

Selected Grants (of 19)

Innovation in Surgical Education Grant	Mar 2024
<ul style="list-style-type: none">Awarded by the Department of Surgery and Office of Surgical Education in Calgary for the development of OSCEai, an AI-powered medical communications app used in Canadian medical schools	
Students Union Quality Money Grant	Mar 2024
<ul style="list-style-type: none">Awarded \$35,797 for the development of OSCEai	
Microsoft for Startups Founders Hub	Mar 2024
<ul style="list-style-type: none">Awarded for the development of OSCEai	
Mach-Gaensslen Foundation: Summer Medical Student Research Award	Feb 2024
<ul style="list-style-type: none">Awarded to create a large language model platform for the management of terminal brain cancers	
OpenAI Researcher Access Program Grant	Jul 2023
<ul style="list-style-type: none">Awarded to develop responsible large language models in medicine	
NSERC Undergraduate Student Researcher Award	Mar 2022
<ul style="list-style-type: none">Awarded for research to develop intelligent control algorithms for a lower limb exoskeleton	

Selected Scholarships and Awards (of 22)

Dutkevich Memorial Trust Award for Medical Students	Jun 2024
<ul style="list-style-type: none">Offered to MD students who excelled in clerkship electives in Pathology, Medical Microbiology, or Neuropathology	
Louise McKinney Post-Secondary Scholarship	Dec 2019, Sep 2020, Nov 2022
<ul style="list-style-type: none">Awarded on the basis of superior academic achievement (top 1.5-2% of faculty) to students at the University of Alberta and Calgary who are also Alberta residents; awarded for the 2018/19, 2019/20, and 2021/22 academic terms	
Peter Lougheed Scholarship	Sep 2021
<ul style="list-style-type: none">Awarded to University of Alberta students who demonstrate leadership through involvement in university or community organizations, sports activities, or cultural activities and academic achievement	
Alberta Innovates COVID-19 Hackathon Post-Secondary Student Award	May 2020
<ul style="list-style-type: none">Created an interactive app to model how COVID-19 spreads given age, poverty, income, and population densityMedia coverage: University of Alberta Folio article and the Genome Alberta podcast	
Sci5 Outstanding Achievement in Science Scholarship	Apr 2019, Mar 2020
<ul style="list-style-type: none">2020 criteria: awarded to 4 well-rounded students with strong academic achievement, extracurricular involvement, and recommendation letters in the Faculty of Science at the University of Alberta2019 criteria: awarded to the top 5 students based on GPA in the Faculty of Science at the University of Alberta who also demonstrate exceptional extracurricular activities	
High Performance Program Athlete with the Canadian Fencing Federation	2013 – 2018
<ul style="list-style-type: none">Medalled in 5 Canadian national competitions in the open, U20, U17, and U13 categoriesAchieved USA Fencing A16 ranking (highest ranking in USA Fencing)23rd Place Guatemala Junior (U20) World Cup; represented Team Canada	
Table Tennis	2007 – 2012
<ul style="list-style-type: none">Medalled in every competition (50+ national and local events) in under 11 and 13 singles, doubles, and team eventsYoungest athlete at the Halifax Canada Winter Games; media coverage: CBC Sports and Toronto Star	

Skills and Hobbies

Certifications	ACLS, BLS, Standard First Aid CPR & AED Level C, Diplôme d'études en langue française niveau B1
Skills	Machine learning, reinforcement learning, software engineering, medical education
Software	Python, R, C++, MATLAB, \LaTeX , HTML, CSS, JavaScript, Node.JS, Simulink, Git
Professional Societies	Congress of Neurological Surgeons, Institute of Electrical and Electronics Engineers (IEEE)
Hobbies & Interests	Billiards, programming, running, fencing, table tennis, soccer, reading
