Education

University of Calgary

2022 – 2025

Doctor of Medicine (MD)

- Elected President of the Calgary Medical Students' Association
- Published 36 peer-reviewed publications (16 first-author); USMLE Step 1 (Pass)
- Awarded grants from OpenAI, Microsoft, Calgary Department of Surgery, and UCalgary Students' Union to develop large language model platforms for medical education and clinical practice

University of Alberta

2020 – 2022

Bachelor of Science, Engineering Physics (Partially completed degree)

GPA: 4.00/4.00

- Top GPA in cohort; top of class in multivariable/vector calculus
- Awarded research grants for combining artificial intelligence with rehabilitation exoskeletons

New College, University of Oxford

2021

Study Abroad, Magnetic Resonance Imaging Physics and Stem Cell Engineering

First Class Honours

University of Alberta

2018 – 2020

Bachelor of Science Honours, Neuroscience (Partially completed degree)

GPA: 4.00/4.00

- Top of class in English critical analysis and organic chemistry II
- Awarded research grants for nerve regeneration

Clinical Electives

Clerkship

Neurosurgery, Toronto Western Hospital, University of Toronto (2 weeks)	Sep 2024
Neurosurgery, Foothills Medical Centre, University of Calgary (2 weeks)	Sep 2024
Neurosurgery, Health Sciences Centre, University of Manitoba (2 weeks)	Aug 2024
Neurosurgery, Foothills Medical Centre, University of Calgary (1 week, selective)	Aug 2024
Critical Care Medicine (Neuro Pod), Foothills Medical Centre, University of Calgary (4 weeks)	Jul 2024
Radiology, The Ottawa Hospital, University of Ottawa (2 weeks)	May 2024
Trauma Surgery, Foothills Medical Centre, University of Calgary (2 weeks)	Apr 2024
Neurosurgery, Walter C. Mackenzie Health Sciences Centre, University of Alberta (2 weeks)	Apr 2024
Neurology, South Health Campus, University of Calgary (2 weeks)	Mar 2024
Neuropathology, Foothills Medical Centre, University of Calgary (2 weeks)	Mar 2024

Preclerkship

Neurosurgery, Brigham and Women's Hospital, Harvard Medical School (2 weeks)	Jul 2023
General Surgery, Foothills Medical Centre, University of Calgary (1 week)	Mar 2023
Cardiology, Foothills Medical Centre, University of Calgary (1 week)	Dec 2022

Leadership and Volunteering

OSCEai

Feb 2023 – Present

Co-Creator and Principal Software Developer

- Created a generative AI app called **OSCEai** that offers communications and medical management practice with images, medical documentation, and feedback; 10,000+ users in 80+ countries
- Led the coding, testing, deployment, outreach, research, grant funding, and marketization phases of OSCEai
- Used in the University of Calgary preclerkship curriculum for medical students, NURS 289 for Calgary nursing students, and University of Manitoba for nursing students; collaborating with Calgary, McMaster, Ottawa, UBC medical schools to provide history taking and medical management practice with simulated patient cases
- Working with neurosurgery programs across the country, dermatology residents at Calgary and Toronto, and ophthalmology residents at Toronto and McGill for research into OSCEai's effectiveness in postgraduate medical education

- Collaborating with Alberta Association of Nurses, Calgary nursing, Manitoba nursing, SAIT respiratory therapy for medical communications practice for their students
- Media coverage: [UCalgary News](#), [The Globe and Mail](#), [Toronto Star](#), [CBC](#), [Global News](#), [CTV News](#), [AgeTech World](#)

Medical Education Working Group

Feb 2023 – Present

Co-Founder, Editor-In-Chief, and Principal Software Developer

- Created [On Call Scheduler](#), an automatic call shift scheduler that optimizes time off and load balancing across team members with statistics per individual; the app allows export of the generated schedule to calendar apps and Microsoft Word
- Created a [Toronto Notes GPT](#) to provide medical knowledge using Toronto Notes and ChatGPT
- Created [PrepCaRMS](#) to provide interview practice with all CaRMS R-1 specialties with tailored feedback for each interaction
- Created the [Royal College Oral Practice App](#) to provide practice and feedback for Canadian residents oral board exams
- Created [MedNoteAI](#) app for automated generation of notes and questions from lecture videos, audio, and PDFs
- Created [SOAPNoteAI](#) an app for automated generation of SOAP notes, consult notes, differential diagnoses, and more from an audio file of a patient interaction

Calgary Medical Students' Association (CMSA)

Sep 2022 – Present

President (Elected)

- Represented and advocated on behalf of 400+ MD students at the Cumming School of Medicine with faculty, administration, and corporate stakeholders; collaborated with Deans and medical student leaders at national conferences to develop and implement policies affecting all Canadian medical students (e.g., advocating to maintain Family Medicine as a 2-year residency)
- Chaired the Independent Student Analysis (ISA) Committee for [2024 accreditation cycle](#) of the Calgary MD Program by the [Committee on Accreditation of Canadian Medical Schools](#) (a 2-year process); led a team of 11 students and public health researchers to create a 59-page report on strengths, weaknesses, and recommendations for the Calgary MD program
- Advocated for and implemented “hot spot” reporting for identification of clerkship rotation sites with mistreatment issues; all clerkship rotation feedback surveys now have anonymous student reporting options
- Collaborated with faculty to create a response protocol package for students in crisis (e.g., self-harm, acute health crisis)
- Created an online platform for students to share and access study materials; created more than 1 GB of videos on course concepts, school notes, tools for career exploration, exams, shadowing, research
- Developed a financial strategy resulting in a 5% annual revenue growth for the CMSA, excluding student fees
- Organized embroidered Patagonia merchandise for all Calgary MD students; acquired a 40% discount and 14-day free trial for AMBOSS for all Calgary MD students
- Collaborated with Undergraduate Medical Education to arrange 6 small group and exam review sessions for students

Youreka Canada

Feb 2019 – Jun 2023

Vice President, Department of Programs

- Collaborated on national equity, diversity, and inclusion policies affecting 200+ students across Canada
- Created [A Gentle Introduction to Data Science with R](#), an interactive e-textbook on R programming and data science used by 1,000+ students across Canada (Dec 2020 – May 2022)
- Led a team of 17 PhD, MD, and BSc students to create and deliver the Youreka national curriculum; generated 60,000+ hours of research education for 1,000+ high school and undergraduate students annually across Canada
- Spearheaded the first professional development and pedagogy training for 17 undergraduate teachers across Canada
- Taught a ten-week science program to a cohort of 30 high school and undergraduate students in Edmonton
- Spearheaded a pilot project for Youreka Edmonton that doubled student enrollment from 30 to 60 students from 2019 to 2020

Engineering Physics Club at the University of Alberta

Sep 2021 – Jun 2022

Vice President External & Second-Year Representative

- Invited by University of Alberta faculty to align the Engineering Physics curriculum with industry and research needs; engaged multiple stakeholder groups; implemented 2 core classes and 2 electives; successfully advocated to maintain the co-op program
- Founded and wrote the [Atom Magazine for Engineering Physics](#); the first issue attracted 300+ readers in 6 countries

Research Experience

Project neuroArm

Jul 2022 – Present

Research Trainee (PI: Dr. Garnette Sutherland, Div. of Neurosurgery)

- Creating large language model apps for physician consultation, automated notes, and education
- Designing machine learning-driven platforms for surgical devices and education; projects include automatic surgeon identification using their surgical tool force profile, quantification of force components which differentiate ‘expert’ vs ‘novice’ surgeons, and an end-to-end platform to track surgical trainee progress

- Created [neuroGPT-X](#), a chat-based app for physicians for vestibular schwannoma; media: [Editorial. Who, or what, to believe](#) by Mayo Clinic surgeons (Journal of Neurosurgery)
- Created [Eloquent Aid](#), an AI-powered app to assist identification of eloquent brain regions during awake craniotomies; users complete image-based tasks by speaking, and the app determines whether the answer is correct in real time; used by neurosurgeons at the University of Calgary and the College of Medicine and Philippine General Hospital

Telerobotic and Biorobotic Systems Group

Sep 2021 – Jun 2023

Research Assistant (PI: Dr. Mahdi Tavakoli, Dept. of Electrical and Computer Engineering)

- Designed reinforcement learning algorithms for exoskeletons to personalize the patient rehabilitation process; implemented the TD3 algorithm with a lower limb exoskeleton to set a user's desired walking speed; [manuscript](#) published in [ICRA 2023](#); media: [CTV](#) and [University of Alberta](#) interviews
- Led the development of a voice-controlled exoskeleton; users complete tasks 54% faster than using a mobile app

Selected Grants (of 19)

Innovation in Surgical Education Grant

Mar 2024

- Awarded by the Department of Surgery and Office of Surgical Education in Calgary for the development of OSCE-GPT

Students Union Quality Money Grant	Mar 2024
<ul style="list-style-type: none"> Awarded \$35,797 for the development of OSCE-GPT 	
Microsoft for Startups Founders Hub	Mar 2024
<ul style="list-style-type: none"> Awarded Microsoft Azure and OpenAI credits for the development of OSCE-GPT 	
Mach-Gaensslen Foundation: Summer Medical Student Research Award	Feb 2024
<ul style="list-style-type: none"> Awarded for project titled “Development and Use of a Novel Large Language Model (LLM) for the Management of Terminal Brain Cancers” 	
OpenAI Researcher Access Program Grant	Jul 2023
<ul style="list-style-type: none"> Awarded for research to develop responsible large language models in medicine 	
Ontario Medical Student Education Research Grant	May 2023
<ul style="list-style-type: none"> Awarded to create an interactive app for dermatology trainees to practice oral examinations (co-awarded with Ye-Jean Park and Dr. Mehul Gupta; PI: Dr. Trevor Champagne) 	
NSERC Undergraduate Student Researcher Award	Mar 2022
<ul style="list-style-type: none"> Awarded for project titled “Intelligent control of a lower-limb exoskeleton” 	
Dean’s Research Award	Sep 2021
<ul style="list-style-type: none"> Awarded for project titled “Speech-based locomotion planning for lower-limb exoskeletons” 	
Alberta Innovates Summer Research Studentship	Apr 2020
<ul style="list-style-type: none"> Awarded for project titled “Skin and Nerves: Understanding the dialogue between axons and skin cells to restore sensation” 	
Office of the Provost and VP (Academic) Summer Studentship Award	May 2019
